SUMMARY

Fresh Graduate in Informatics Engineering at Sriwijaya University with hands on experience in software engineering, Fullstack Developer and machine learning based solutions. Experienced in developing user-centered applications using Next, React, Firebase, REST API, and modern software development practices. Strong analytical, problem solving, leadership, and collaboration skills with a passion for building scalable and impactful digital solutions.

EDUCATION

Aug 2022 - May 2026

Sriwijaya University

Bachelor of Computer Science in Informatics Engineering

- GPA : 3.95/4.00.
- Thesis : AEROTRACK 2.0: Analysis and Comparison of Data Pipeline Architectures and Flight Monitoring Systems Based on API Data Sources.

WORK EXPERIENCE

Frontend Developer

Jun 2024 - Aug 2024

Dinas KOMINFO Kota Palembang, *Internship*

- Contributed to the development of the official web platform for Dinas KOMINFO Kota Palembang, focusing on frontend implementation and CMS integration.
- Built responsive and modular user interfaces using Next.js and TailwindCSS to improve usability and maintainability.
- Integrated Strapi CMS and React Query for efficient content management and optimized data fetching.
- Developed multiple core modules, including News Management, Hosting Requests, SSL Requests, Subdomain Requests, and Application Submission Systems.

Frontend Developer

Aug 2024 - Oct 2024

Digistar Class 2024 - Mentoring Program by Telkom Indonesia, *Internship*

- Selected as one of 500 participants from over 12,000 applicants for an intensive frontend engineering internship program and graduated as **Top 29** with a score of 166.57.
- Built frontend features using JavaScript and React.js while collaborating in a team-based product development environment.
- Developed business validation frameworks including Lean Canvas and Business Model Canvas for product ideation.
- Participated in project prototyping and pitching sessions for real-world use cases provided by ANTARES.

Backend Developer

Sept 2024 - Jan 2025

Bangkit Academy 2024 By Google, GoTo, Tokopedia, Traveloka, *Bootcamp*

- Served as Backend Developer in a multidisciplinary capstone team consisting of Machine Learning, Mobile Development, and Cloud Computing engineers.
- Designed and implemented server-side logic using Node.js and Express.js to support seamless data exchange between users and cloud infrastructure.
- Developed RESTful APIs and managed backend workflows for the project's economy and welfare-focused solution.
- Collaborated closely with cross-functional teams to integrate machine learning models, mobile applications, and cloud deployment pipelines.
- Applied cloud computing principles to build scalable and efficient backend services.

Frontend Developer & Project Manager

March 2026 - Present

Manggala Team, *Freelance*

- Currently leading the development of a Computer-Based Test (CBT) platform for SMA Titian Teras Jambi, managing both product execution and frontend engineering.
- Set up project workflows and task management using **Jira** to organize sprint planning, team responsibilities, and delivery timelines.
- Built and maintained the frontend application using React (Vite), focusing on responsive UI and seamless exam experience.
- Developed the exam engine logic with debounce mechanisms to optimize answer submission, minimize redundant requests, and improve system reliability during active exams.

HONORS

Technology Euphoria Web Development Competition Runner up - 2nd Place

Nov 2024

- Achieved 2nd place in a national level web development competition as part of a 3-member team.
- Designed and developed Kasir Kilat, a web-based point of sale (POS) system aimed at improving sales management efficiency for small businesses.
- Built the frontend using Next.js, TailwindCSS, and ShadCN UI, focusing on responsive design and seamless user experience.
- Implemented efficient state and server data management using React Query to optimize application performance.

SKILLS

- Hard Skill** : HTML5, CSS3, JavaScript, TypeScript, TailwindCSS, React, Next.js, MySQL, Firebase, PostgreSQL, PHP, Java, Python, Cloud Computing, Business Planning, Project Pitching.
- Soft Skill** : Leadership, Public Speaking, Critical Thinking, Communication skills, Time management, Problem Solving, Project Management

ORGANIZATION EXPERIENCE

BEM KM FASILKOM UNSRI - Staff

Feb 2024 - Jan 2025

- External relations division staff responsible for serving as the liaison between BEM KM Fasilkom UNSRI and external parties or companies.

Google Developer Groups On Campus: Sriwijaya University - Member

Dec 2024 - Dec 2025

- Actively engaged in frontend focused workshops, technical discussions, and collaborative projects to strengthen practical development skills.
- Expanded expertise in React.js, modern frontend architecture, and UI/UX best practices through hands-on community learning.
- Collaborated with peers in knowledge sharing sessions covering web development trends, problem-solving, and software engineering practices.
- Participated in community events to enhance leadership, communication, and critical thinking skills within the developer ecosystem.

VOLUNTEERING EXPERIENCE

Local Project with AIESEC IN UNSRI

Nov 2023 - Jan 2024

Seruni Youth Project SDG 4: Quality Education

- Learned **Sign Language** as a means to communicate,
- became a teacher with deaf friends as the students,
- Developed a typewriter website used as a communication tool helper with deaf friends,
- Graduated with the title of "Most Enjoying Participant" and received Reward and Recognition.
